REPORT OF THE AUDITOR GENERAL
ON THE FINANCIAL STATEMENTS OF
BANK KERJASAMA RAKYAT MALAYSIA BERHAD
FOR THE YEAR ENDED 31 DISEMBER 2016

KETUA AUDIT NEGARA
MALAYSIA

REPORT OF THE AUDITOR GENERAL
ON THE FINANCIAL STATEMENTS OF
BANK KERJASAMA RAKYAT MALAYSIA BERHAD
FOR THE YEAR ENDED 31 DECEMBER 2016

Report on the Financial Statements

The financial statements of Bank Kerjasama Rakyat Malaysia Berhad and the Group have been audited by my representative which comprise the Statements of Financial Position as at 31 December 2016 and the Statements Of Profit Or Loss And Other Comprehensive Income, Statements of Changes in Equity and Statements of Cash Flows for the year then ended, a summary of significant accounting policies and other explanatory information.

Directors' Responsibility for the Financial Statements

The Directors are responsible for the preparation and fair presentation of these financial statements in accordance with approved financial reporting standards in Malaysia, guidelines issued by Bank Negara Malaysia, the requirements of the Bank Kerjasama Rakyat Malaysia Berhad (Special Provisions) Act 1978 (Act 202), the Cooperative Societies Act 1993 (Act 502) and the Development Financial Institutions Act 2002 (Act 618). The directors are also responsible for such internal control as the directors determine is necessary to enable the preparation of financial statements that are free from material misstatement whether due to fraud or error.

Auditor's Responsibility

My responsibility is to express an opinion on these financial statements based on the audit. The audit has been carried out in accordance with the Audit Act 1957 and in conformity with approved standards on auditing in Malaysia. Those standards require that I comply with ethical requirements and plan and perform the audit to obtain reasonable assurance whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements whether due to fraud or error. In making those risk assessments, the auditors consider internal control relevant to the entity's preparation and fair presentation of financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the directors as well as evaluating the overall presentation of the financial statements.

I believe that the audit evidence that I have obtained is sufficient and appropriate to provide a basis for my audit opinion.

Opinion

In my opinion, the financial statements give a true and fair view of the financial position of Bank Kerjasama Rakyat Malaysia Berhad and the Group as at 31 December 2016 and their financial performance as well as cash flows for the year then ended in accordance with approved financial reporting standards in Malaysia and guidelines issued by Bank Negara Malaysia, the requirements of the Bank Kerjasama Rakyat Malaysia Berhad (Special Provisions) Act 1978 (Act 202), the Cooperative Societies Act 1993 (Act 502) and the Development Financial Institutions Act 2002 (Act 618).

I have considered the financial statements and the auditors' reports of the subsidiary companies of which I have not acted as auditor as indicated in the notes to the financial statements. I am satisfied that the financial statements of the subsidiary companies that have been consolidated with Bank Kerjasama Rakyat Malaysia Berhad's financial statements are in appropriate form and content for the purpose in the preparation of the financial statements. I have received satisfactory information and explanations required for those purposes. The auditors' reports on the financial statements of the subsidiary companies were not subjected to any observations that could affect the financial statements.

Report on Other Legal and Regulatory Requirements

In accordance with the requirements of the Cooperative Societies Act 1993 (Act 502) in Malaysia, I also report that in our opinion:

i. The accounting and other records have been properly kept in accordance with Section 58 of the Act;

ii. The receipt, expenditure and investment of monies and the acquisition and disposal of assets by the Bank Kerjasama Rakyat Malaysia Berhad during the year ended 31 December 2016 are in accordance with the Act, the provision of Bank Kerjasama Rakyat Malaysia Berhad (Special Provisions) Act 1978 (Act 202) and the by-laws of Bank Kerjasama Rakyat Malaysia Berhad; and

iii. The assets and liabilities, in all material respects, are fairly stated in accordance with the accounting policies.

(TAN SRI DR. MADINAH BINTI MOHAMAD)
AUDITOR GENERAL
MALAYSIA

PUTRAJAYA
30 MARCH 2017

STATEMENT BY DIRECTORS

We, **TAN SRI SHUKRY MOHD SALLEH** and **RAZALEE AMIN**, being two of the Directors of Bank Kerjasama Rakyat Malaysia Berhad, do hereby state that:

(i) The financial statements of the Bank have been prepared in accordance with the provisions of Bank Kerjasama Rakyat Malaysia Berhad (Special Provisions) Act 1978 (Act 202), the Co-operative Societies Act 1993 (Act 502), Development Financial Institutions Act 2002 (Act 618) and applicable Malaysian Financial Reporting Standards ("MFRS") and International Financial Reporting Standards ("IFRS") with modifications based on guidelines issued by Bank Negara Malaysia ("BNM") and in compliance with the principles of Shariah;

(ii) The financial statements of the subsidiaries of the Bank have been prepared in accordance with MFRS, IFRS and the provisions of the Companies Act, 1965 in Malaysia.

In the opinion of the Directors, the financial statements are drawn up so as to give true and fair view of state of affairs as at 31 December 2016 and of the results of the operations and cash flows for the year ended on that date.

Signed on behalf of the Board of Directors in accordance with a resolution of the Directors,

TAN SRI SHUKRY MOHD SALLEH
Chairman

RAZALEE AMIN
Director

Annual Report of Shariah Committee of Bank Rakyat 2016

بِسْمِ ٱللَّٰهِ ٱلرَّحْمَٰنِ ٱلرَّحِيمِ

In the name of Allah, the most Beneficent, the most Merciful

In carrying out the roles and responsibilities of Shariah Committee of Bank Rakyat, we hereby submit the following report on Shariah compliance of Bank Rakyat's business activities and operations for the financial year ended 31st December 2016.

1. We have reviewed the principles and the contracts relating to the following products introduced by Bank Rakyat in a year of 2016 as below :

   i. Personal Financing-i Quick Cash based on *Tawarruq* launched on 22nd February 2016.
   ii. Motorcycle Financing-i (Low-Powered) based on *Tawarruq* launched on 22nd February 2016.
   iii. *Pinjaman Mikro-i Bazar Ramadan 2016* (SBR) based on *Qard, Wakalah* dan *Ujrah* launched on 27th May 2016.

2. We have reviewed the transactions, applications and dealings entered into by Bank Rakyat through the following processes :

   i. Shariah review on products and departmental policies and procedures.
   ii. Shariah review on legal documents, Product Disclosure Sheet (PDS), notices and marketing materials prior to publishment.
   iii. Shariah review on Shariah compliance status of commercial banking customers prior to approval of financing.
   iv. Shariah review on product operations at the level of branches, related departments and Bank's subsidiaries which involve review on legal documents executed and *akad* sequence.
   v. Shariah review on system application related to banking products.
   vi. Shariah review on bank activities including rental activities of Bank Rakyat and it subsidiaries' assets to third parties and sponsorship.
   vii. Shariah risk assessment on new products or enhancement to the existing products, processes and procedures, business activities and operations.
   viii. Shariah audit on operations, documentations and system application of departments, branches and subsidiaries of Bank Rakyat.

3. The management of Bank Rakyat is responsible to ensure that Bank Rakyat conducts its business in accordance with Shariah principles. It is our responsibility to form an independent opinion, based on our review of the operations of Bank Rakyat and to report to the management of Bank Rakyat.

4. We have assessed the work carried out by Shariah Research and Consultation Department, Shariah Review Department and Shariah Audit Department which included examining on a sample basis, each type of transaction, the relevant documentations and procedures adopted by Bank Rakyat.

5. We planned and performed our review so as to obtain all the information and explanations which we considered necessary in order to provide us with sufficient evidence to give reasonable assurance that Bank Rakyat has not violated the Shariah principles.

In our opinion:

1. The principles and the contracts implemented on products listed 1st Item are in compliance with the Shariah principles and Shariah resolutions issued by the Shariah Advisory Council of Bank Negara Malaysia, as well as Shariah decisions made by us.

2. The transactions, applications and dealings entered into by Bank Rakyat that we have reviewed are in compliance with the Shariah principles and Shariah resolutions issued by the Shariah Advisory Council of Bank Negara Malaysia, as well as Shariah decisions made by us.

3. All confirmed Shariah Non-Compliant events have been rectified accordingly.

4. The transactions, applications and dealings which are subjected to further investigation and rectification will be carried out on an on-going basis.

5. All earnings that have been realized from sources or by means prohibited with the Shariah principles have been considered for disposal to charitable causes. The distributed amount of Shariah non-compliance income within 2016 was RM 15,434.58 and no balance as at 31st December 2016.

6. The calculation of zakat for 2016 is in compliance with Shariah principles.

We, the members of the Shariah Committee of Bank Rakyat, to the best of our knowledge, do hereby confirm that the operations of Bank Rakyat, to the best of its effort, for the year ended 31st December 2016 have been conducted in conformity with the Shariah principles.

DIRECTORS' REPORT

The Directors of Bank Kerjasama Rakyat Malaysia Berhad ("the Bank") have pleasure in submitting their report and the audited financial statements of the Group and of the Bank for the financial year ended 31 December 2016.

PRINCIPAL ACTIVITIES

The principal activities of the Bank are those of a co-operative that carries out banking activities based on Shariah principles through accepting deposits and providing financial services for retail and commercial needs.

The principal activities of the subsidiaries are disclosed in Note 13 to the financial statements.

There have been no significant changes in the nature of these principal activities of the Bank and of its subsidiaries during the year.

RESULTS OF OPERATIONS

	Group RM'000	Bank RM'000
Profit before taxation and zakat	1,738,110	1,700,330
Taxation	(65,998)	(60,389)
Zakat	(39,084)	(37,849)
Profit after taxation and zakat	1,633,028	1,602,092
Statutory appropriations	(475,925)	(475,925)
Profit for the year after statutory appropriations	1,157,103	1,126,167
Other comprehensive income	28,578	28,578
Total comprehensive income for the year	1,185,681	1,154,745
Total comprehensive income for the year attributable to:		
Equity holders of the Bank	1,185,681	1,154,745

In the opinion of the Directors, the results of operations of the Group and of the Bank during the financial year have not been substantially affected by any item, transaction or event of a material and unusual nature.

RESERVES AND PROVISION

There were no material transfers to or from reserves or provisions during the financial year other than those disclosed in the financial statements.

DIVIDENDS

During the financial year, the Bank paid a final cash dividend of 13% amounting to RM385 million in respect of the previous financial year.

In respect of the current financial year, the Board of Directors has proposed a cash dividend of 17% amounting to RM510 million. The proposed dividend will be recognised in the subsequent financial period upon approval by the relevant authorities of the Bank.

OTHER STATUTORY INFORMATION

In the opinion of the Directors, the financial statements set out on pages 4 to 132 have been drawn up so as to give a true and fair view of the state of affairs of the Group and of the Bank as of 31 December 2016 and of the results of their operations and cash flows for the year ended on that date.

The Directors are satisfied that before the statements of financial position and the statements of profit or loss and other comprehensive income of the Group and of the Bank were made out, reasonable steps have been taken on the following matters:

(i) to ascertain that proper action had been taken in relation to the writing off of bad debts and the making of impairment provisions and allowance for doubtful debts and had satisfied themselves that all known bad financing and bad debts had been written off and that adequate impairment provisions and allowance for impaired financing had been made for doubtful debts; and

(ii) to ensure that any current assets which were unlikely to realise their book values in the ordinary course of business had been written down to their estimated realisable values.

At the date of this report, within the knowledge of the Directors, they are not aware of any circumstances that would cause the following:

(i) the amount written off for bad financing and bad debts or the amount of the impairment provisions and allowance for doubtful debts in the financial statements of the Group and of the Bank inadequate to any substantial extent; or

(ii) the values attributed to the current assets in the financial statements of the Group and of the Bank misleading; or

(iii) the amount reported in the financial statements of the Group and of the Bank misleading; and

(iv) any adherence to the existing method of valuation of assets or liabilities of the Group and of the Bank misleading or inappropriate.

OTHER STATUTORY INFORMATION (CONTINUED)

At the date of this report, there does not exist:

(i) any charge on the assets of the Group and of the Bank which has arisen since the end of the financial year which secures the liability of any other person; and

(ii) any contingent liability of the Group and of the Bank which has arisen since the end of the financial year.

No contingent or other liability which has not been discharged has been undertaken by the Group and the Bank, except as disclosed in Note 37 to the financial statements. No contingent or other liability has become enforceable, or is likely to become enforceable within the period of twelve months after the end of the financial year which, in the opinion of the Directors, will or may substantially affect the ability of the Group and of the Bank to meet their obligations as and when they fall due.

In the opinion of the Directors, no item, transaction or event of a material and unusual nature has arisen in the interval between the end of the financial year and the date of this report which is likely to affect substantially the results of operations of the Group and of the Bank for the succeeding financial year.

The Directors do solemnly and sincerely declare that there were no other matters, within their knowledge, that are not disclosed in accordance with Section 59, Co-operative Societies Act 1993.

Signed on behalf of the Board of Directors in accordance with a resolution of the Directors,

TAN SRI SHUKRY MOHD SALLEH

RAZALEE AMIN

NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2016

1. GENERAL INFORMATION

The Bank was established under the Co-operative Societies Act 1993 with the registered office address at 35th Floor, Menara 1, Menara Kembar Bank Rakyat, No. 33, Jalan Rakyat, 50470 Kuala Lumpur.

The principal activities of the Bank are those of a co-operative that carries out banking activities based on Shariah principles through accepting deposits and providing financial services for retail and commercial needs.

The principal activities of the subsidiaries are disclosed in Note 13.

There have been no significant changes in the nature of these principal activities of the Bank and its subsidiaries during the year.

The Bank has a total of 147 branches as of 31 December 2016 (2015: 148)

2. BASIS OF PREPARATION OF THE FINANCIAL STATEMENTS

The financial statements of the Bank have been prepared in accordance with the provisions of Bank Kerjasama Rakyat Malaysia Berhad (Special Provisions) Act 1978 (Act 202), the Co-operative Societies Act 1993 (Act 502), Development Financial Institutions Act 2002 (Act 618) and applicable Malaysian Financial Reporting Standards (“MFRS”), International Financial Reporting Standards (“IFRS”), Guidelines issued by Bank Negara Malaysia (“BNM”) and in compliance with the principles of Shariah.

The financial statements of the subsidiaries of the Bank have been prepared in accordance with MFRS, IFRS and the provisions of the Companies Act, 1965 in Malaysia.

The financial statements are presented in Ringgit Malaysia (“RM”) and are rounded to the nearest thousand (“000”), unless otherwise stated.

2. BASIS OF PREPARATION OF THE FINANCIAL STATEMENTS (CONTINUED)

The following are accounting standards, amendments and interpretations that have been issued by the Malaysian Accounting Standards Board ("MASB") but have not been adopted by the Group and the Bank.

MFRSs, Interpretations and amendments effective for annual periods beginning on or after 1 January 2017

- Amendments to MFRS 12, *Disclosure of Interests in Other Entities (Annual Improvements to MFRS Standards 2014-2016 Cycle)*
- Amendments to MFRS 107, *Statement of Cash Flows – Disclosure Initiative*
- Amendments to MFRS 112, *Income Taxes – Recognition of Deferred Tax Assets for Unrealised Losses*

MFRSs, Interpretations and amendments effective for annual periods beginning on or after 1 January 2018

- MFRS 9, *Financial Instruments (2014)*
- MFRS 15, *Revenue from Contracts with Customers*
- Clarifications to MFRS 15, *Revenue from Contracts with Customers*
- IC Interpretation 22, *Foreign Currency Transactions and Advance Consideration*
- Amendments to MFRS 1, *First-time Adoption of Malaysian Financial Reporting Standards (Annual Improvements to MFRS Standards 2014-2016 Cycle)*
- Amendments to MFRS 2, *Share-based Payment – Classification and Measurement of Share-based Payment Transactions*
- Amendments to MFRS 4, *Insurance Contracts – Applying MFRS 9 Financial Instruments with MFRS 4 Insurance Contracts*
- Amendments to MFRS 128, *Investments in Associates and Joint Ventures (Annual Improvements to MFRS Standards 2014-2016 Cycle)*
- Amendments to MFRS 140, *Investment Property – Transfers of Investment Property*

MFRSs, Interpretations and amendments effective for annual periods beginning on or after 1 January 2019

- MFRS 16, *Leases*

MFRSs, Interpretations and amendments effective for annual periods beginning on or after a date yet to be confirmed

- Amendments to MFRS 10, *Consolidated Financial Statements* and MFRS 128, *Investments in Associates and Joint Ventures – Sale or Contribution of Assets between an Investor and its Associate or Joint Venture*

2. BASIS OF PREPARATION OF THE FINANCIAL STATEMENTS (CONTINUED)

The Group and the Bank plan to apply the abovementioned accounting standards, amendments and interpretations:

- from the annual period beginning on 1 January 2017 for those amendments that are effective for annual periods beginning on or after 1 January 2017.

- from the annual period beginning on 1 January 2018 for those accounting standards, amendments and interpretation that are effective for annual periods beginning on or after 1 January 2018, except for Amendments to MFRS 1, Amendments to MFRS 2, Amendments to MFRS 4, Amendments to MFRS 128 and IC Interpretation 22 which are not applicable to the Group and the Bank.

- from the annual period beginning on 1 January 2019 for the accounting standard that is effective for annual periods beginning on or after 1 January 2019.

The initial application of the accounting standards, amendments or interpretations are not expected to have any material financial impacts to the current period and prior period financial statements of the Group and the Bank except as mentioned below:

MFRS 15, *Revenue from Contracts with Customers*

MFRS 15 replaces the guidance in MFRS 111, *Construction Contracts*, MFRS 118, *Revenue*, IC Interpretation 13, *Customer Loyalty Programmes*, IC Interpretation 15, *Agreements for Construction of Real Estate*, IC Interpretation 18, *Transfers of Assets from Customers* and IC Interpretation 131, *Revenue - Barter Transactions Involving Advertising Services*.

The Group is currently assessing the financial impact that may arise from the adoption of MFRS 15.

MFRS 9, *Financial Instruments*

MFRS 9 replaces the guidance in MFRS 139, *Financial Instruments: Recognition and Measurement* on the classification and measurement of financial assets and financial liabilities, and on hedge accounting.

The Group is currently assessing the financial impact that may arise from the adoption of MFRS 9.

MFRS 16, *Leases*

MFRS 16 replaces the guidance in MFRS 117, *Leases*, IC Interpretation 4, *Determining whether an Arrangement contains a Lease*, IC Interpretation 115, *Operating Leases – Incentives* and IC Interpretation 127, *Evaluating the Substance of Transactions Involving the Legal Form of a Lease*.

The Group is currently assessing the financial impact that may arise from the adoption of MFRS 16.

3. SIGNIFICANT ACCOUNTING POLICIES

3.1 Basis of preparation

The financial statements of the Group and of the Bank have been prepared on the historical cost basis, except for certain assets and financial instruments that are measured at revalued amounts or fair values at the end of each reporting period, as explained in the accounting policies below.

Historical cost is generally based on the fair value of the consideration involved in exchange for goods and services.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Group takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date. Fair value for measurement and/or disclosure purposes in these consolidated financial statements is determined on such a basis, except for share-based payment transactions that are within the scope of MFRS 2, leasing transactions that are within the scope of MFRS 117 and measurements that have some similarities to fair value but are not fair value, such as net realisable value in MFRS 102 or value-in-use in MFRS 136.

In addition, for financial reporting purposes, fair value measurements are categorised into Level 1, 2 or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;

- Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and

- Level 3 inputs are unobservable inputs for the asset or liability.

The principal accounting policies are set out below.

3.2 Subsidiaries and basis of consolidation

The consolidated financial statements incorporate the financial statements of the Bank and entities (including structured entities) controlled by the Bank and its subsidiaries. Control is achieved when the Bank has the power over the investee; is exposed, or has rights, to variable returns from its involvement with the investee; and has the ability to use its power to affect the investee's return.

The Bank reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control stated above.

3. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

3.2 Subsidiaries and basis of consolidation (continued)

When the Bank has less than a majority of the voting rights of an investee, it has power over the investee when the voting rights are sufficient to give it the practical ability to direct the relevant activities of the investee unilaterally. The Bank considers all relevant facts and circumstances in assessing whether or not the Bank's voting rights in an investee are sufficient to give it power, including:

- the size of the Bank's holding of voting rights relative to the size and dispersion of holdings of the other vote holders;

- potential voting rights held by the Bank, other vote holders or other parties;

- rights arising from other contractual arrangements; and

- any additional facts and circumstances that indicate that the Bank has, or does not have, the current ability to direct the relevant activities at the time that decisions need to be made, including voting patterns at previous shareholders' meetings.

Consolidation of a subsidiary begins when the Bank obtains control over the subsidiary and ceases when the Bank loses control of the subsidiary. Specifically, income and expenses of a subsidiary acquired or disposed of during the year are included in profit or loss and other comprehensive income from the date the Bank gains control until the date when the Bank ceases to control the subsidiary.

Profit or loss and each component of other comprehensive income are attributed to the owners of the Bank and to the non-controlling interests. Total comprehensive income of subsidiaries is attributed to the owners of the Bank and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.

Where necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with the Group’s accounting policy.

All intragroup assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

Changes in the Group’s ownership interests in subsidiaries that do not result in the Group losing control are accounted for as equity transactions. The carrying amounts of the Group’s interests and the non-controlling interests are adjusted to reflect the changes in their relative interests in the subsidiaries. Any difference between the amount by which the non-controlling interests are adjusted and the fair value of the consideration paid or received is recognised directly in equity and attributed to owners of the Bank.

3. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

3.2 Subsidiaries and basis of consolidation (continued)

When the Group loses control of a subsidiary, a gain or loss is recognised in profit or loss and is calculated as the difference between (i) the aggregate of the fair value of the consideration received and the fair value of any retained interest and (ii) the previous carrying amount of the assets (including goodwill), and liabilities of the subsidiary and any non-controlling interests. All amounts previously recognised in other comprehensive income in relation to that subsidiary are accounted for as if the Group had directly disposed of the related assets or liabilities of the subsidiary. The fair value of any investment retained in the former subsidiary at the date when control is lost is regarded as the fair value on initial recognition for subsequent accounting under MFRS 139, and when applicable, the cost on initial recognition of an investment in an associate or joint venture.

3.3 Business combinations

Acquisitions of subsidiaries and businesses are accounted for using the acquisition method. The consideration transferred in a business combination is measured at fair value which is calculated as the sum of the acquisition-date fair values of assets transferred by the Group, liabilities incurred by the Group to the former owners of the acquiree and equity instruments issued by the Group in exchange for control of the acquiree. Acquisition-related costs are recognised in profit or loss as incurred.

At acquisition date, the identifiable assets acquired and liabilities assumed are recognised at their fair value, except that:

- deferred tax assets or liabilities and assets or liabilities related to employee benefit arrangements are recognised and measured in accordance with MFRS 112, *Income Taxes* and MFRS 119, *Employee Benefits* respectively;

- liabilities or equity instruments related to the share-based payment arrangements of the acquiree or share-based payment arrangements of the Group entered into to replace share-based payment arrangements of the acquiree are measured in accordance with MFRS 2, *Share-based Payment* at the acquisition date; and

- assets (or disposal groups) that are classified as held-for-sale in accordance with MFRS 5, *Non-current Assets Held for Sale and Discontinued Operations* are measured in accordance with that Standard.

Goodwill is measured as the excess of the sum of the consideration transferred, the amount of any non-controlling interests in the acquiree, and the fair value of the acquirer's previously held equity interest in the acquiree (if any) over the net of the acquisition-date amounts of the identifiable assets acquired and the liabilities assumed. If, after reassessment, the net of the acquisition-date amounts of the identifiable assets acquired and liabilities assumed exceeds the sum of the consideration transferred, the amount of any non-controlling interests in the acquiree and the fair value of the acquirer's previously held equity interest in the acquiree (if any), the excess is recognised immediately in profit or loss as a bargain purchase gain.

3. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

3.3 Business combinations (continued)

Non-controlling interests that are present ownership interests and entitle their holders to a proportionate share of the entity's net assets in the event of liquidation may be initially measured either at fair value or at the non-controlling interests' proportionate share of the recognised amounts of the acquiree's identifiable net assets. The choice of measurement basis is made on a transaction-by-transaction basis. Other types of non-controlling interests are measured at fair value or, when applicable, on the basis specified in another MFRS.

Where the consideration transferred by the Group in a business combination includes assets or liabilities resulting from a contingent consideration arrangement, the contingent consideration is measured at its acquisition-date fair value. Changes in the fair value of the contingent consideration that qualify as measurement period adjustments are adjusted retrospectively, with corresponding adjustments against goodwill. Measurement period adjustments are adjustments that arise from additional information obtained during the "measurement period" (which cannot exceed one year from the acquisition date) about facts and circumstances that existed at the acquisition date.

The subsequent accounting for changes in the fair value of contingent consideration that do not qualify as measurement period adjustments depends on how the contingent consideration is classified. Contingent consideration that is classified as equity is not remeasured at subsequent reporting dates and its subsequent settlement is accounted for within equity. Contingent consideration that is classified as an asset or liability is remeasured at subsequent reporting dates in accordance with MFRS 139, *Financial Instruments: Recognition and Measurement* or MFRS 137, *Provisions, Contingent Liabilities and Contingent Assets*, as appropriate, with the corresponding gain or loss being recognised in profit or loss.

Where a business combination is achieved in stages, the Group's previously held equity interests in the acquiree are remeasured to fair value at the acquisition date (i.e. the date when the Group attains control) and the resulting gain or loss, if any, is recognised in profit or loss. Amounts arising from interests in the acquiree prior to the acquisition date that have previously been recognised in other comprehensive income are reclassified to profit or loss, where such treatment would be appropriate if that interest were disposed of.

If the initial accounting for a business combination is incomplete by the end of the reporting period in which the combination occurs, the Group reports provisional amounts for the items for which the accounting is incomplete. Those provisional amounts are adjusted during the measurement period (see above), or additional assets or liabilities are recognised, to reflect new information obtained about facts and circumstances that existed as of the acquisition date that, if known, would have affected the amounts recognised at that date.

3. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

3.4 Goodwill on consolidation

Goodwill arising on an acquisition of a business is carried at cost as established at the date of acquisition of the business (see 3.3 above) less accumulated impairment losses, if any.

For the purposes of impairment testing, goodwill is allocated to each of the Group's cash-generating units (or groups of cash-generating units) that is expected to benefit from the synergies of the combination.

A cash-generating unit to which goodwill has been allocated is tested for impairment annually, or more frequently when there is an indication that the unit may be impaired. If the recoverable amount of the cash-generating unit is less than its carrying amount, the impairment loss is allocated first to reduce the carrying amount of any goodwill allocated to the unit and then to the other assets of the unit pro-rata on the basis of the carrying amount of each asset in the unit. Any impairment loss for goodwill is recognised directly in profit or loss. An impairment loss recognised for goodwill is not reversed in subsequent periods.

On disposal of the relevant cash-generating unit, the attributable amount of goodwill is included in the determination of the profit or loss on disposal.

3.5 Financial instruments

Financial assets and financial liabilities are recognised when, and only when the Group and the Bank become a party to the contractual provisions of the instruments.

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of the financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs that are directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in profit or loss.

Effective profit method

The effective profit method is a method of calculating the amortised cost of a financial asset or liability and of allocating profit income or expense over the relevant period. The effective profit rate is the rate that exactly discounts estimated future cash payments or receipts through the expected life of the financial instrument, or (where appropriate) a shorter period, to the net carrying amount on initial recognition.

3. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

3.5 Financial instruments (continued)

3.5.1 Financial assets

Financial assets are classified into the following specified categories: financial assets 'at fair value through profit or loss' or financial assets 'held-for-trading', 'held-to-maturity' investments, 'available-for-sale' financial assets and 'financing and receivables'. The classification depends on the nature and purpose of the financial assets and is determined at the time of initial recognition. All regular way purchases or sales of financial assets are recognised and derecognised on a trade date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the marketplace.

3.5.1.1 Financial assets held-for-trading or at fair value through profit or loss

A financial asset is classified as held-for-trading if it is acquired or incurred principally for the purpose of selling or repurchasing it in the near term or if it is part of a portfolio of identified financial instruments that are managed together and for which there is evidence of a recent actual pattern of short-term profit-taking. They are recognised in the statements of financial position as 'Financial assets held-for-trading'.

Financial instruments included in this category are recognised initially at fair value; transaction costs are recognised in profit or loss. Gains and losses arising from changes in fair value are recognised in profit or loss and are reported as 'Gains/(losses) on revaluation of financial assets held-for-trading'. Profit income on financial assets held-for-trading are included in 'Income from financial assets'.

3.5.1.2 Available-for-sale financial assets

Available-for-sale financial assets are financial assets that are intended to be held for an indefinite period of time, which may be sold in response to needs for liquidity or changes in profit rates, exchange rates or equity prices or that are not classified as financing and receivables, held-to-maturity investments or financial assets at fair value through profit or loss.

Available-for-sale financial assets are initially recognised at fair value at the end of the reporting period. Gains and losses arising from changes in fair value are recognised in other comprehensive income and accumulated in other reserves, with the exception of impairment losses and profit calculated using the effective profit method which are recognised in profit or loss. Where the investment is disposed of or is determined to be impaired, the cumulative gain or loss previously accumulated in other reserves is reclassified to profit or loss.

3. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

3.5 Financial instruments (continued)

3.5.1 Financial assets (continued)

3.5.1.2 Available-for-sale financial assets (continued)

Available-for-sale equity instruments that do not have a quoted market price in an active market whose fair value cannot be reliably measured and derivatives that are linked to and must be settled by delivery of such unquoted equity instruments are measured at cost less any identified impairment losses at the end of the reporting period.

Dividend from available-for-sale equity investments are recognised in profit or loss when the Group's and the Bank's right to receive the dividend is established.

3.5.1.3 Held-to-maturity investments

Held-to-maturity investments are non-derivative financial assets with fixed or determinable payments and fixed maturities that the Group's and the Bank's management have the positive intent and ability to hold to maturity.

These are initially recognised at fair value including direct and incremental transaction costs and measured subsequently at amortised cost, using the effective profit method less any impairment.

Profit on financial assets held-to-maturity is included in profit or loss and reported as 'Income from financial assets'. In the case of an impairment, the impairment loss is reported as a deduction from the carrying value of the financial asset and recognised in profit or loss as 'Allowance for impairment on financial assets'.

3.5.1.4 Financing and receivables

Financing and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market.

Financing and receivables are initially recognised at fair value, including direct and incremental transaction costs, and subsequently measured at amortised cost using the effective profit method, less any impairment. Regular way recognition of financing and advances is recorded on settlement date, when all the conditions under financing contract have been fulfilled.

Profit on financing is recognised in profit or loss by applying the effective profit rate.

3. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

3.5 Financial instruments (continued)

3.5.2 Impairment of financial assets

3.5.2.1 Financing and advances

Financing and advances ("financing") of the Group and of the Bank are classified as impaired when they fulfil any of the following criteria:

(i) Principal or profits or both are past due for three (3) months or more;

(ii) Where a financing is in arrears for less than three (3) months, the financing exhibits indications of credit weaknesses; or

(iii) Where an impaired financing has been rescheduled or restructured, the financing will continue to be classified as impaired until payments based on the revised and/or restructured terms have been observed continuously for certain period of months.

For determination of impairment on financing, the Group and the Bank assess at the end of each reporting period whether there is objective evidence that a financing or a group of financing is impaired. A financing or a group of financing is impaired and impairment losses are incurred only if there is objective evidence of impairment as a result of one or more events that have occurred after the initial recognition of the asset (i.e. an incurred loss event) and that loss event has an impact on the estimated future cash flows of the financing or a group of financing that can be reliably estimated.

The Group and the Bank first assess individually whether objective evidence of impairment exists individually for financing which are individually significant, or collectively for financing which are not individually significant. If it is determined that no objective evidence of impairment exists for an individually assessed financing, the financing is then included in a group of financing with similar credit risk characteristics and collectively assessed for impairment. Financing that are individually assessed for impairment and for which an impairment loss is or continues to be recognised are not included in collective assessment for impairment.

3. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

3.5 Financial instruments (continued)

3.5.2 Impairment of financial assets (continued)

3.5.2.1 Financing and advances (continued)

If there is objective evidence that an impairment loss has been incurred, the amount of the loss is measured as the difference between the financing's carrying amount and the present value of estimated future cash flows (excluding future credit losses that have not been incurred) discounted at the financing's original effective profit rate. The carrying amount of the financing is reduced through the use of an allowance account and the amount of the loss is recognised in profit or loss. Where appropriate, the calculation of the present value of the estimated future cash flows of a collateralised financial asset reflects the cash flows that may result from foreclosure less costs for obtaining and selling the collateral, whether or not foreclosure is probable.

For the purposes of a collective evaluation of impairment, financing are grouped on the basis of similar credit risk characteristics. Impairment for this group is assessed based on the historical financing loss experience in terms of default rate and estimated recovery rate.

Future cash flows of the financing are evaluated depending on the availability of security for the financing. For unsecured financing, the fraction of exposure at default that will not be recovered following the default is taken in full.

For financing secured with collateral pledged to the Group and the Bank, the fraction of exposure at default would take into account value of the security discounted based on the expected period of recovery of the security using the effective profit rate.

The likelihood that the financing would fall into default is computed based on average default rates for the latest number of years using historical data of outstanding balance that flow through to the following month. Similar rate of the likelihood of default is applied to the group of financing with similar credit risk characteristics.

3. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

3.5 Financial instruments (continued)

3.5.2 Impairment of financial assets (continued)

3.5.2.1 Financing and advances (continued)

In conjunction with the convergence of the FRSs in Malaysia with the IFRSs, BNM's guideline on Classification and Impairment Provisions for Loans/Financing was revised on 9 November 2011 to align the requirements on the determination of collective assessment allowance with that of the Malaysian Financial Reporting Standard 139: Financial Instruments: Recognition and Measurement ["MFRS 139"]. Based on the revised guideline, the transitional arrangement on collective assessment is removed with effect from 1 January 2012. Thereafter, the Bank applies the basis for collective assessment impairment allowance by grouping of these financing with similar credit risk characteristics as explained above. On 4 February 2014, BNM issued letter requiring banking institutions to maintain, in aggregate, collective impairment provisions and regulatory reserves at minimum rate of 1.2% of total outstanding financing, net of individual impairment provisions. This move is to further strengthen buffers against potential credit losses.

When a financing is uncollectible, it is written off against the related allowance for financing impairment. Such financing are written off after all the necessary procedures have been completed and the amount of the loss has been determined. Impairment charges relating to financing and advances to customers are classified in financing impairment charges.

If, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognised (such as an improvement in the debtor's credit rating), the previously recognised impairment loss is reversed by adjusting the allowance account. The amount of the reversal is recognised in profit or loss.

3. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

3.5 Financial instruments (continued)

3.5.2 Impairment of financial assets (continued)

3.5.2.2 Available-for-sale financial assets

The Group and the Bank assess at the end of each reporting period whether there is objective evidence that a financial asset or a group of financial assets is impaired. In the case of equity investments classified as available for sale, a significant or prolonged decline in the fair value of the security below its cost is objective evidence of impairment resulting in the recognition of an impairment loss. If any such evidence exists for available-for-sale financial assets, cumulative gain or losses previously recognised in other comprehensive income are reclassified to profit or loss in the period.

In respect of available-for-sale equity securities, impairment losses previously recognised in profit or loss are not reversed through profit or loss. Any increase in fair value subsequent to an impairment loss is recognised in other comprehensive income and accumulated under the heading of other reserves. In respect of available-for-sale debt securities, impairment losses are subsequently reversed through profit or loss if an increase in the fair value of the investment can be objectively related to an event occurring after the recognition of the impairment loss.

3.5.2.3 Held-to-maturity investments

The Group and the Bank assess at the end of each reporting period whether objective evidence of impairment of financial investments held-to-maturity exists as a result of one or more loss events and that loss event has an impact on the estimated future cash flows of the financial investment or group of financial investments that can be reliably estimated.

When there is objective evidence of impairment, an impairment loss is recognised as the difference between the acquisition cost and the present value of the estimated future cash flows, less any impairment loss previously recognised.

If held-to-maturity investments have a variable profit rate, the discount rate for measuring any impairment loss is the current effective profit rate determined under the contract. As a practical expedient, the Group and the Bank may measure impairment on the basis of an instrument’s fair value using an observable market price.

3. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

3.5 Financial instruments (continued)

3.5.2 Impairment of financial assets (continued)

3.5.2.4 Rescheduled and restructured financing

Where a financing shows evidence of credit weaknesses, the Group and the Bank may seek to renegotiate the financing rather than to take possession of collateral. This may involve an extension of the payment arrangements via rescheduling or the renegotiation of new financing terms and conditions via restructuring. Management monitors the renegotiated financing to ensure that all the revised terms are met and that the payments are made promptly for a continuous period. Where an impaired financing is renegotiated, the borrower must adhere to the revised and/or restructured payment terms for a continuous period of six months before the financing is classified as non-impaired. This financing continues to be subjected to individual or collective impairment assessment.

3.5.3 Derecognition of financial assets

Financial assets are derecognised when the contractual rights to the cash flows from the assets expire, or when the Group and the Bank transfer the financial assets and substantially all the risks and rewards of ownership of the assets to another entity. If the Group and the Bank neither transfer nor retain substantially all the risks and rewards of ownership and continue to control the financial asset, the Group and the Bank recognise their retained interest in the asset and an associated liability for amounts it may have to pay. If the Group and the Bank retain substantially all the risks and rewards of ownership of a transferred financial asset, the Group and the Bank continue to recognise the financial asset and also recognise a collaterised borrowing for the proceeds received.

On derecognition of a financial asset in its entirety, the difference between the asset’s carrying amount and the sum of the consideration received and receivable and the cumulative gain or loss that had been recognised in other comprehensive income and accumulated under the heading of other reserves is recognised in profit or loss.

3.5.4 Classification as debt or equity

Debt and equity instruments issued by a group entity are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangement and the definitions of a financial liability and an equity instrument.

3.5.5 Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by a group entity are recognised at the proceeds received, net of direct issue costs.

3. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

3.5 Financial instruments (continued)

3.5.5 Equity instruments (continued)

Repurchase of the Group's and of the Bank's own equity instruments is recognised and deducted directly in equity. No gain or loss is recognised in profit or loss on the purchase, sale, issue or cancellation of the Group's and of the Bank's own equity instruments.

3.5.6 Financial liabilities

Financial liabilities are initially recognised at the fair value of consideration received less directly attributable transaction costs. Subsequent to initial recognition, financial liabilities are measured at amortised cost using the effective profit method. The Group and the Bank do not have any non-derivative financial liabilities designated at fair value through profit or loss. Financial liabilities at amortised cost include deposits from customers, deposits and placements from banks and financial institutions, trade and other payables, recourse obligations on financing sold to Cagamas, debt securities issued and other borrowed funds.

The effective profit method is a method of calculating the amortised cost of a financial liability and of allocating profit expense over the relevant period. The effective profit rate is the rate that exactly discounts estimated future cash payments through the expected life of the financial liability, or where appropriate, a shorter period to the net carrying amount on initial recognition.

3.5.7 Derecognition of financial liabilities

The Group and the Bank derecognise financial liabilities when, and only when, the Group's and the Bank's obligations are discharged, cancelled or they expire. The difference between the carrying amount of the financial liabilities derecognised and the consideration paid or payable is recognised in profit or loss.

3.5.8 Determination of fair value

For financial instruments traded in active markets, the determination of fair values of financial assets and financial liabilities is based on quoted market prices. This includes listed equity securities and quoted debt instruments on Bursa Malaysia and broker quotes from Bond Pricing Agency.

A financial instrument is regarded as quoted in an active market if quoted prices are readily and regularly available from an exchange, dealer, broker, industry group, pricing service or regulatory agency, and those prices represent actual and regularly occurring market transactions on an arm's length basis. If the above criteria are not met, the market is regarded as being inactive. Indications that a market is inactive are when there is a wide bid-offer spread or significant increase in the bid-offer spread or there are few recent transactions.

3. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

3.5 Financial instruments (continued)

3.5.8 Determination of fair value (continued)

For all other financial instruments, fair value is determined using valuation techniques. Under these techniques, fair values are estimated from observable data in respect of similar financial instruments, using models to estimate the present value of expected future cash flows or other valuation techniques, and using inputs existing at the end of the reporting period.

In cases when the fair value of unquoted equity instruments cannot be determined reliably, the instruments are carried at cost less impairment.

The fair value for financing and advances as well as liabilities to banks and customers are determined using a present value model on the basis of contractually agreed cash flows, taking into account credit quality, liquidity and costs.

3.6 Cash and cash equivalents

Cash and cash equivalents, which comprise cash and balances with banks and other financial institutions and money at call and deposit placements maturing within one month, are short term, highly liquid investments with maturities of one month or less from the date of acquisition and are readily convertible to cash with insignificant risks of changes in value.

3.7 Leases

Leases comprise operating lease. Lease of assets is classified as operating lease where a significant portion of the risks and rewards of ownership is retained by the lessor.

a) Group as lessor

Rental income from operating leases is recognised on a straight-line basis over the term of the relevant lease. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised on a straight-line basis over the lease term.

3. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

3.7 Leases (continued)

b) Group as lessee

Operating lease payments are recognised as an expense on a straight-line basis over the lease term, except where another systematic basis is more representative of the time pattern in which economic benefits from the leased asset are consumed. Contingent rentals arising under operating leases are recognised as an expense in the period in which they are incurred.

In the event that lease incentives are received to enter into operating leases, such incentives are recognised as a liability. The aggregate benefit of incentives is recognised as a reduction of rental expense on a straight-line basis, except where another systematic basis is more representative of the time pattern in which economic benefits from the leased asset are consumed.

3.8 Investment properties

Properties that are held for long-term rental yields or for capital appreciation or both, and that are not occupied by the entities in the Group and the Bank, are classified as investment properties. Investment properties are measured initially at cost, including transaction costs.

Subsequent to initial recognition, investment properties are measured at fair value, which reflects market conditions at the end of the reporting period. Gains or losses arising from changes in the fair value of investment properties are included in profit or loss in the year in which they arise.

An investment property is derecognised upon disposal or when the investment property is permanently withdrawn from use and no future economic benefits are expected from the disposal. Any gain or loss arising on derecognition of the property (calculated as the difference between net disposal proceeds and the carrying amount of the assets), is included in profit or loss in the period which the property is derecognised.

3. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

3.9 Property and equipment

Land and buildings comprise mainly branches and offices. All property and equipment used by the Group and the Bank are stated at historical cost less accumulated depreciation and any impairment losses. Historical cost includes expenditure that are directly attributable to the acquisition of the asset and any other costs directly attributable to bringing the asset to working condition for its intended use, and the costs of dismantling and removing the items and restoring the site on which they are located.

Subsequent expenditures are included in the asset's carrying amount or are recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the Bank and the cost of the item can be measured reliably. The carrying amount of the replaced part is derecognised.

All other repair and maintenance costs are charged to profit or loss during the financial period in which they are incurred.

Freehold land has unlimited useful life and therefore is not depreciated. Construction work-in-progress are not depreciated until the assets are ready for their intended use.

Depreciation of other property and equipment are calculated using the straight-line method to allocate their cost to their residual values over their estimated useful lives as follows:

Buildings	50 years
Leasehold land and buildings	50 years
Renovation	5 - 50 years
Furniture, fittings and office equipment	5 years
Motor vehicles	5 years

The assets' residual values, useful lives and depreciation method are reviewed at the end of each reporting period with the effect of any changes in estimates accounted for on a prospective basis.

An item of property and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gains and losses arising on disposals are determined as the difference between sales proceeds and the carrying amount of the asset and is recognised in profit or loss.

3.10 Prepaid lease payments

Leasehold land that has an indefinite economic life which title is not expected to pass to the Group by end of the lease period is classified as operating lease.

The upfront payments for right to use the leasehold land over a predetermined period are accounted for as prepaid lease payments and are stated at cost less amount amortised. The prepaid lease payments are amortised on a straight-line basis over the remaining lease terms, ranging from 17 to 90 years (2015: 18 to 91 years).

3. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

3.11 Assets classified as held-for-sale

Assets are classified as held-for-sale if their carrying amount will be recovered principally through a sale transaction rather than through continuing use. This condition is regarded as met only when the sale is highly probable and the asset (or disposal group) is available for immediate sale in its present condition.

Management must be committed to the sale, which should be expected to qualify for recognition as a completed sale within one year from the date of classification. Non-current assets (or disposal groups) classified as held-for-sale are measured at the lower of their previous carrying amount and fair value less costs to sell. Any differences are included in profit or loss.

3.12 Provisions

Provisions are recognised when the Group and the Bank have a present obligation (legal or constructive) as a result of past events, when it is probable that the Group and the Bank will be required to settle the obligation, and when a reliable estimate can be made of the amount of the obligation.

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. Where a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows (where the effect of time value of money is material).

3.13 Inventories

Inventories are valued at the lower of cost (determined using the first-in, first out method) and net realisable value. The cost of inventories comprises the original cost of purchase plus the incidental cost incurred in bringing the inventories to their present location and condition. Net realisable value represents the estimated selling price in the ordinary course of business less selling and distribution costs and all other estimated costs to completion. In arriving at net realisable value, due allowance is made for damaged, obsolete or slow-moving inventories.

Completed property units for sale are valued at the lower of cost and net realisable value. Cost is determined using the ‘specific identification’ method.

3.14 Property development

Property development costs comprise costs associated with the acquisition of land and all costs that are directly attributable to development activities or that can be allocated on a reasonable basis to such activities.

Property development costs not recognised as an expense is recognised as an asset and is stated at the lower of cost and net realisable value.

The Group considers the portion of land and development expenditure on which development work has commenced and is expected to be completed within the normal operating cycle as current assets.

3. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

3.15 Profit income and expense

For all financial instruments measured at amortised cost and profit-bearing financial assets classified as held-for-trading and available-for-sale, income and expense are recognised under “Income” and “Expenditure” respectively using the effective profit method.

The effective profit method is a method of calculating the amortised cost of a financial asset or liability and of allocating the profit income or expense over the relevant period. The effective profit rate is the rate that exactly discounts the estimated future cash payments or receipts through the expected life of the financial instrument or a shorter period, where appropriate, to the net carrying amount of the financial asset or liability.

The calculation takes into account all contractual terms of the financial instruments (for example, prepayment options) but does not consider future credit losses. Significant fees and transaction costs integral to the effective profit rate, as well as premiums or discounts are also considered.

For impaired assets where the value of the financial assets has been written down as a result of an impairment loss, profit income continues to be recognised using the profit rate used to discount the future cash flows for the purpose of measuring the impairment loss.

3.16 Fee and commission income

Financing arrangement fees are recognised as income based on contractual arrangements. Guarantee fee is recognised as income upon issuance of the guarantee. Fees from advisory and corporate finance activities are recognised net of goods and services tax and discounts on completion of each stage of the assignment.

Fees and commissions are generally recognised on an accrual basis when the service has been provided.

3.17 Dividend income

Dividends are recognised in profit or loss as ‘dividend income’ when the Group’s right to receive payment is established.

3. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

3.18 Income tax

3.18.1 Current income tax

Current income tax is the expected tax payable on the taxable income for the year using tax rates enacted or substantively enacted by the end of the reporting period, and any adjustment to tax payable in respect of previous years.

3.18.2 Deferred income tax

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profits. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences, unused tax losses and unused tax credits to the extent that it is probable that sufficient future taxable profits will be available against which those deductible temporary differences, unused tax losses and unused tax credits can be utilised. Such deferred tax assets and liabilities are not recognised if the temporary difference arises from goodwill or from the initial recognition (other than in a business combination) of other assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates that have been enacted or substantively enacted by the end of the reporting period. The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Group and the Bank expect, at the end of the reporting period, to recover or settle the carrying amount of their assets and liabilities.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient future taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority on the same taxable entity, or on different tax entities, but they intend to settle their current tax assets and liabilities on a net basis.

3. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

3.19 Employee benefits

3.19.1 Defined benefit plan

A defined benefit plan is a post-employment plan that defines an amount of retirement benefit that an employee will receive on retirement, usually dependent on one or more factors, such as age, years of service and compensation.

The Bank provides lump sum benefit at retirement for its employees who have completed at least 10 years of service. The retirement benefit payable is based on last drawn salary and years of service.

The Bank established a trust fund to provide such benefits to its eligible members. The trust fund is managed by Amanah Raya Berhad.

Payments to defined contribution retirement benefit plans are recognised as an expense when employees have rendered service entitling them to the contribution.

For defined benefit retirement benefit plans, the cost of providing benefits is determined using the projected unit credit actuarial cost method, with actuarial valuations being carried out at the end of each reporting period. Remeasurement, comprising actuarial gains and losses, the effect of the changes to the asset ceiling (if applicable) and the return on plan assets (excluding profit), is reflected immediately in the statement of financial position with a charge or credit recognised in other comprehensive income in the period in which they occur. Remeasurement recognised in other comprehensive income is reflected immediately in retained profits and will not be reclassified to profit or loss. Past service cost is recognised in profit or loss in the period of a plan amendment. Net profit expense or income is calculated by applying the discount rate used to measure the defined benefit obligation at the beginning of the period to the then net defined benefit liability or asset. Defined benefit costs are categorised as follows:

- service cost (including current service cost, past service cost, as well as gains and losses on curtailments and settlements)
- net profit expense or income; and
- remeasurement.

The Group and the Bank present the first two components of defined benefit costs in profit or loss in the line item of personnel expenses. Curtailment gains and losses are accounted for as past service costs.

The retirement benefit asset recognised in the consolidated statement of financial position represents value of any economic benefits available in the form of refunds from the plans or reductions in future contributions to the plans.

A liability for a termination benefit is recognised at the earlier of when the entity can no longer withdraw the offer of the termination benefit and when the entity recognises any related restructuring costs.

3. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

3.19 Employee benefits (continued)

3.19.1 Defined benefit plan (continued)

The plan exposes the Bank to actuarial risks as follows:

i. Investment

Present value of the defined benefit plan liability is calculated using a discount rate determined by reference to high quality corporate sukuk yields. If the return on plan asset is below this rate, it will create a plan deficit. Currently the plan has a relatively steady return from investment in fixed deposits.

ii. Profit

A decrease in the sukuk profit rate will increase the plan liability. This is partially offset since return on the plan asset in fixed deposits is relatively stable.

iii. Longevity

Present value of the defined benefit plan liability is calculated by reference to the best estimate of mortality of the plan participants both during and after their employment. An increase in the life expectancy of the plan participants will increase the plan’s liability.

iv. Salary

Present value of the defined benefit plan liability is calculated by reference to the future salaries of plan participants. As such, an increase in the salary of the plan participants will increase the plan’s liability.

3.19.2 Defined contribution plan

For defined contribution plan, the Group and the Bank pay contributions to Employees Provident Fund (EPF) on a mandatory basis. The Group and the Bank have no further payment obligations once the contributions have been paid. The contributions are recognised as employee benefit expense when they are due.

3.19.3 Short-term employee benefits

Wages, salaries, paid annual leaves, bonuses and social contributions are recognised in the year in which the associated services are rendered by employees of the Group and of the Bank. Short-term accumulating compensated absences such as paid annual leave are recognised when services are rendered by the employees that increase their entitlement to future compensated absences. Short-term non-accumulating compensated absences such as sick leave are recognised when the absences occur.

3. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

3.20 Impairment of non-financial assets

At the end of each reporting period, the Group and the Bank review the carrying amounts of its tangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). Where it is not possible to estimate the recoverable amount of an individual asset, the Group and the Bank estimate the recoverable amount of the cash-generating unit to which the asset belongs. When a reasonable and consistent basis of allocation can be identified, corporate assets are also allocated to individual cash-generating units, or otherwise they are allocated to the smallest group of cash-generating units for which a reasonable and consistent allocation basis can be identified.

Recoverable amount is the higher of fair value less costs to sell and value-in-use. In assessing value-in-use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset (or cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or cash-generating unit) is reduced to its recoverable amount. An impairment loss is recognised immediately in profit or loss, unless the relevant asset is carried at a revalued amount, in which case the impairment loss is treated as a revaluation decrease.

Where an impairment loss subsequently reverses, the carrying amount of the asset (or cash-generating unit) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (or cash-generating unit) in prior years. A reversal of an impairment loss is recognised immediately in profit or loss, unless the relevant asset is carried at a revalued amount, in which case the reversal of the impairment loss is treated as a revaluation increase.

3.21 Profit equalisation reserve (PER)

PER is a mechanism to enable the Bank to mitigate the downside risk of income reduction and to maintain competitive rates of returns or deposit rates in line with “Guidelines on Profit Equalisation Reserve” as prescribed by Bank Negara Malaysia.

PER is created by setting aside an amount out of total gross income before distribution to depositors and the Bank.

PER is segregated between the portion belonging to the depositors and the Bank based on the contractual profit sharing ratio at the point of creation. PER for depositors is classified as other liability and PER for the Bank is classified as a separate reserve in equity.

Utilisation of PER shall be appropriated from both the depositors’ and the Bank’s portion based on the contractual profit sharing ratio at the point of utilisation.

3. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

3.21 Profit equalisation reserve (PER) (continued)

In line with the transition plan for implementation of classification of Islamic deposits and investment accounts under Islamic Financial Services Act 2013 (IFSA 2013), banks are required to replace all deposit products applying Shariah concepts of which non-principal contract is guaranteed, for example Mudarabah and Wakalah, with products that comply with the new requirements under IFSA.

In this respect, the Bank has taken steps by offering term deposits under concept Tawarruq which is in line with the requirements of the transition plan. In effect, deposit products under Mudarabah contract has not been offered and PER has been fully utilised in accordance with guidelines on PER.

3.22 Zakat

In computing for zakat, the Group and the Bank have been applying the growth capital method based on the rate of 2.5%. This method applies the rate on owners' equity, long term liability, net of fixed assets and non-current assets, and subjected to allowable adjustments.

It is an obligatory amount payable on the business on behalf of the shareholders and/or business entity depending on the ownership characteristics.

Zakat is distributed according to Shariah principle and being extended through Islamic Religious Council of the respective states and other rightful beneficiaries or asnaf.

4. CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS

The Group's and the Bank's financial statements and financial results are influenced by accounting policies, assumptions, estimates and management judgements, which necessarily have to be made in the course of preparation of the financial statements.

The Group and the Bank make estimates and assumptions that affect the reported amounts of assets and liabilities within the next financial year. All estimates and assumptions required in conformity with MFRS are best estimates undertaken in accordance with the applicable standards.

Estimates and judgements are evaluated on a continuous basis, and are based on past experience and other factors, including expectations with regard to future events. Accounting policies and management's judgements for certain items are especially critical for the Group's and the Bank's results and financial situation due to their materiality.

4. CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS (CONTINUED)

4.1 Impairment losses on financing and advances

The Group and the Bank review their financing and advances portfolio to determine whether impairment losses should be recognised in profit or loss.

Financing is considered as impaired when there is objective evidence of impairment as a result of loss event that has affected future estimated cash flows of the financing subsequent to its initial recognition.

Components of impairment allowance are as follows:

(i) Individual impairment

Where an account has exceeded certain number of arrears or when the account has fulfilled certain criteria that indicates credit weaknesses, the account is individually assessed for impairment.

Individual allowance is measured as the difference between carrying amount of the financing and present value of estimated future cash flows that are discounted at the effective profit rate.

Expectation on future cash flows is established by applying the best estimate formed on reliable and objective evidence. This process involves significant and reasonable judgement.

(ii) Collective impairment

Collective impairment is applicable to a group of financing with similar credit risk characteristics, and which is not classified under individual impairment as described above.

Collective allowance takes into account probability of financing turning into default (or probability of default) and estimated loss on default (or loss given default) of any particular financing.

Probability of default is the resultant of cumulative trend of default for a specified period, whereas loss given default is measured by considering value of collateral to the financing and estimated recovery period from the collateral.

Probability of default is reflective of business sectors for the financing and is refined to the extent of gravity in terms of defaults shown by the financing. Derivation of the rate for probability of default takes into account risk aspect of the business sector.

4. CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS (CONTINUED)

4.2 Impairment of financial assets available-for-sale

At the end of each reporting period, management will assess if there is objective evidence of impairment as a result of one or more events that occurred after the initial recognition of the investment.

(i) Impairment for debt securities

A debt security is impaired if there is an indication that a loss event has occurred since initial recognition. This normally has a negative impact on the estimated future cash flows in relation to the payments of the security.

(ii) Impairment for equity securities

For equity instruments, impairment is not identified based on analysis of projected cash flows similar to debt instruments above. It arises due to establishment of the following events:

a) significant decline in fair value of the securities below original cost (30%); or
b) prolonged decline in fair value of the securities below original cost (9 months)

The above are considered objective evidence for provision of impairment on the equity securities.

4.3 Financial assets held-to-maturity

The Group and the Bank classify some non-derivative financial assets with fixed or determinable payments and fixed maturity as held-to-maturity. This classification requires significant judgement.

In making this judgement, the Group and the Bank evaluate their intention and ability to hold such investments to maturity. If the Group and the Bank were to fail to keep these investments to maturity other than for the specific circumstances - for example, selling an insignificant amount close to maturity - the Group and the Bank are required to reclassify the entire category as available-for-sale. Accordingly, the investments would be measured at fair value instead of amortised cost.

4.4 Deferred tax assets

Deferred tax assets are recognised for deductible temporary differences to the extent that it is probable that sufficient future taxable profit will be available against which the deductible temporary differences can be utilised. Significant management judgement is required to determine the amount of deferred tax assets that can be recognised, based upon likely timing and level of future taxable profit together with future tax planning strategies.

10. TRADE RECEIVABLES

	Group	
	2016	2015
	RM'000	RM'000
At amortised cost		
Trade receivables	**7,463**	10,507
Less: Allowance for doubtful debts	**(1,819)**	(2,091)
	5,644	8,416

Trade receivables are classified as financing and receivables and are therefore measured at amortised cost. The credit period granted for sale of goods is 30 days (2015: 30 days). No profit is charged on trade receivables. Allowance for doubtful debts is recognised against trade receivables based on estimated irrecoverable amounts determined by reference to past default experience of the counterparty and an analysis of the counterparty's current financial position.

The Group has trade receivables totalling RM4,269,000 (2015: RM7,155,000) that are past due at the end of the reporting period for which the Group has not recognised allowance for doubtful debts because there has not been a significant change in credit quality and the amounts are still considered recoverable. The Group does not hold any collateral or other credit enhancements over these balances nor does it have a legal right of offset against any amounts owed by the Group to the counterparty.

The table below is an analysis of trade receivables at the end of the reporting period:

	Group	
	2016	2015
	RM'000	RM'000
Neither past due nor impaired		
1 day to less than 1 month	**1,375**	1,261
Past due but not impaired		
2 months to less than 3 months	**1,208**	1,552
3 months to less than 4 months	**2,783**	719
4 months and above	**278**	4,884
	4,269	7,155
Past due and impaired	**1,819**	2,091
	7,463	10,507

10. TRADE RECEIVABLES (CONTINUED)

Movements in the allowance for doubtful debts are as follows:

	Group	
	2016	2015
	RM'000	RM'000
As of 1 January	**2,091**	1,499
Impairment losses recognised during the year (Note 31(ii))	**182**	990
Amount recovered during the year (Note 30(ii))	**(454)**	(318)
Amount written off during the year	**-**	(80)
As of 31 December	**1,819**	2,091

In determining the recoverability of a trade receivable, the Group considers any change in the credit quality of the trade receivable from the date credit was initially granted up to the end of the reporting period. The concentration of credit risk is limited due to the customer base being large and unrelated.

11. OTHER ASSETS

	Group		Bank	
	2016	2015	**2016**	2015
	RM'000	RM'000	**RM'000**	RM'000

As of 31 December	**16,109**	15,399	**15,998**	15,288

** This contribution is required under sub-section 42(i) of Malaysia Co-operative Societies Commission Act 2007 (Act 665) either at a rate of 1% on the qualifying liability or RM200 million, whichever is lower, commencing in the financial period beginning on or after 1 January 2012.

11. OTHER ASSETS (CONTINUED)

(iii) Defined benefit plan

The Bank sponsors a funded defined benefit plan for all of its qualifying employees. The defined benefit plan is administrated by a separate Fund that is legally separated from the Bank. Under the Fund, the eligible employees are entitled to compensation based on last drawn salary and years of service with the Bank upon their retirement.

The principal assumptions used for the purposes of the actuarial valuation are as follows:

	Group and Bank	
	2016	2015
Normal retirement age: Male and Female (years)	**-**	60
Discount rate	**-**	5.75%
Rate of salary increases	**-**	8-9%

Amounts recognised in comprehensive income in respect of these defined benefit plans are as follows:

	Group and Bank	
	2016	2015
	RM'000	RM'000
Service cost:		
Current service cost	**21,279**	35,816
Past service cost	**-**	(40,522)
Loss on settlement	**29,302**	-
Net profit income	**(9,552)**	(16,428)
Components of defined benefit costs recognised in profit or loss (Note 31(i))	**41,029**	(21,134)
Remeasurement on the net defined benefit liability:		
Actuarial loss arising from changes in experience adjustments	**(4,964)**	(2,051)
Net return on plan assets	**11,601**	12,511
Components of defined benefit costs recognised in other comprehensive income	**6,637**	10,460
Total	**47,666**	(10,674)

11. OTHER ASSETS (CONTINUED)

(iii) Defined benefit plan (continued)

Amount recognised in the statements of financial position arising from the Bank's obligation in respect of its defined benefit plan is as follows:

	Group and Bank	
	2016	2015
	RM'000	RM'000
Present value of funded obligations	**-**	(513,023)
Fair value of plan assets	**-**	797,843
Net assets	**-**	284,820

Movements in the present value of funded obligations are as follows:

	Group and Bank	
	2016	2015
	RM'000	RM'000
As of 1 January	**513,023**	501,195
Current service cost	**21,279**	35,816
Past service cost	**-**	(40,522)
Loss on settlement	**29,302**	-
Finance cost	**17,109**	27,969
Benefits paid	**(6,990)**	(9,384)
Settlement payments	**(568,759)**	-
Actuarial loss arising from changes in experience adjustments	**(4,964)**	(2,051)
As of 31 December	**-**	513,023

Movements in the fair value of plan assets are as follows:

	Group and Bank	
	2016	2015
	RM'000	RM'000
As of 1 January	**797,843**	775,341
Profit income	**26,661**	44,397
Proceeds from realisation of the plan assets	**(805,913)**	-
Benefits paid from defined benefit plan	**(6,990)**	(9,384)
Net return on plan assets	**(11,601)**	(12,511)
As of 31 December	**-**	797,843

11. OTHER ASSETS (CONTINUED)

(iii) Defined benefit plan (continued)

The fair value of the plan assets at the end of the reporting period is as follows:

	Group and Bank	
	2016	2015
	RM'000	RM'000
Term deposits	**-**	797,843
	-	797,843

The actual return on plan assets was RM15,060,000 (2015: RM31,886,000).

The Bank wound up the defined benefit plan effective 31 July 2016. The accrued retirement benefit was calculated using employees' service and salaries as at the wind up date. The calculated accrued retirement benefit was paid directly by the Bank to all eligible employees.

12. INVENTORIES

Inventories consist of the following:

	Group	
	2016	2015
	RM'000	RM'000
Trading inventories, at cost	**4,338**	4,358
Completed property units	**589**	588
	4,927	4,946

13. INVESTMENT IN SUBSIDIARIES

	Bank	
	2016	2015
	RM'000	RM'000
Unquoted shares, at cost	**65,976**	61,976

During the year, Rakyat Management Services Sdn Bhd and Rakyat Nominees Sdn Bhd ordinary shares were transferred from Rakyat Holdings Sdn Bhd to the Bank by dividend-in-specie amounting RM4,000,000. Subsequent to that, the investment in subsidiaries recorded at cost amounts to RM65,976,000.

Details of the subsidiaries, all incorporated in Malaysia, are as follows:

Name	**Proportion of ownership interest and voting power held by the Group**		**Principal activities**
	2016	**2015**	
	%	**%**	
Directly owned			
Rakyat Holdings Sdn Bhd *	100	100	Investment and property management
Rakyat Management Services Sdn Bhd *	100	-	Management of Ar-Rahnu business and franchise
Rakyat Nominees Sdn Bhd *	100	-	Dormant
Indirectly owned through Rakyat Holdings Sdn Bhd			
Rakyat Hartanah Sdn Bhd *	100	100	Property development and project management
Rakyat Management Services Sdn Bhd *	-	100	Management of Ar-Rahnu business and franchise
Rakyat Asset Management Sdn Bhd *	100	100	Management services and co-operative administrator
Rakyat Facility Management Sdn Bhd *	100	100	Building management and maintenance
Rakyat Travel Sdn Bhd *	100	100	Transportation and travelling services
Rakyat Nominees Sdn Bhd *	-	100	Dormant
Rakyat Niaga Sdn Bhd *	100	100	Trading and supply of goods

* The financial statements of these subsidiaries were not audited by the Auditor General of Malaysia.

13. INVESTMENT IN SUBSIDIARIES (CONTINUED)

Composition of the Group

Information about the composition of the Group at the end of the reporting period is as follows:

Principal activities	Place of Incorporation and Operation	Number of directly owned subsidiaries		Number of indirectly owned subsidiaries	
		2016	2015	2016	2015

	850,983	708,590	**688,221**	685,145

Investment properties of the Group and of the Bank are stated at fair value and are situated in Malaysia.

The fair values of the Group's and of the Bank's investment properties as at 31 December 2016 and 31 December 2015 have been arrived at on the basis of a valuation carried out by independent valuers who have appropriate qualification and recent experience in the valuation of properties in the relevant locations. The fair value was arrived at by reference to current prices in an active market for similar properties in the same location and condition. In estimating the fair value of the properties, the highest and best use of the properties is their current use. There has been no change to the valuation technique during the year.

15. INVESTMENT PROPERTIES (CONTINUED)

Details of the Group's and the Bank's investment properties and information about the fair value hierarchy are as follows:

		2,818,612	2,718,871

(i) On 26 September 2012, the Bank obtained the approval from the Securities Commission for the establishment of a Senior Islamic Medium Term Notes (IMTNs) Programme to issue a Sukuk Musharakah of up to RM1.0 billion. The issuance was made via a Special Purpose Vehicle (SPV), Imtiaz Sukuk Berhad. The Senior IMTNs Programme has a tenor of up to 10 years from the date of the first issuance and shall be issued for a maturity of up to 10 years provided that the Senior IMTNs mature prior to the expiry of the Senior IMTNs Programme.

On 23 November 2012, the Bank issued its inaugural RM1.0 billion Sukuk Musharakah made in two tranches. The first tranche of RM300 million in nominal value of Senior IMTNs for a tenor of 3 years with profit distribution rate at 3.88% and were fully redeemed on 23 November 2015. The second tranche of RM700 million in nominal value of Senior IMTN for a tenor of 5 years with profit distribution rate at 4.08% and maturity date at 23 November 2017.

21. DEBT SECURITIES ISSUED (CONTINUED)

(ii) On 25 October 2013, the Bank established a RM9.0 billion Senior IMTNs Programme to issue Sukuk Musharakah via Imtiaz Sukuk (II) Berhad with a programme tenor of 10 years.

(a) On 20 December 2013, the Bank issued the first tranche and second tranche of the Senior IMTNs of RM200 million and RM300 million respectively. The first tranche has a tenor of 3 years with profit distribution rate at 4.30%, matured and fully redeemed on 23 December 2016 and the second tranche has a tenor of 5 years with profit distribution rate at 4.45%, maturing in December 2018. The profit is payable semi-annually each year commencing 20 June 2014.

(b) On 24 March 2014, the Bank issued the third tranche and fourth tranche of RM575 million and RM425 million of the Senior IMTNs. The third tranche has a tenor of 3 years with profit distribution rate at 4.30% and the fourth tranche has a tenor of 5 years with profit distribution rate at 4.60%. The notes mature on 24 March 2017 and 22 March 2019 respectively. The profit is payable semi-annually each year commencing 24 September 2014.

(c) On 24 November 2014, the Bank issued the fifth tranche and the sixth tranche of RM150 million and RM350 million. The fifth tranche bears a profit distribution rate at 4.50% and matures on 22 November 2019. The sixth tranche bears a profit distribution rate at 4.65% maturing on 24 November 2021. The profit is payable semi-annually each year commencing 25 May 2015.

The Sukuk Musharakah constitute direct, unconditional and unsecured obligations of the Issuer and shall at all times rank pari passu without discrimination, preference or priority among themselves and at least pari passu with all other unsecured and unsubordinated obligations of the Issuer, subject to the provisions of the Transaction Documents and those preferred by law.

(iii) On 8 March 2016, the Bank obtained approval from the Securities Commission for the establishment of a Subordinated Sukuk Programme to issue a Tier II Subordinated Sukuk Murabahah of up to RM5.0 billion in nominal value. The issuance was made via a SPV, Mumtaz Rakyat Sukuk Berhad. The Subordinated Sukuk Programme has a tenor of up to 20 years from the date of the first issuance and shall be issued with a maturity for at least 5 years and up to 20 years.

(a) On 20 June 2016, the Bank issued the first tranche of RM300 million in nominal value of Tier II Subordinated Sukuk for a tenor of 10 years with profit distribution rate at 4.95% and maturity date at 19 June 2026.

The Subordinated Sukuk Murabahah will constitute direct, unconditional, unsecured and subordinated obligations of the Issuer ranking pari passu without any preference among themselves and at least pari passu with all other present and future unsecured and subordinated obligations of the Issuer, except those preferred by law and the Transaction Documents.

The proceeds from the issuances were utilised by the Bank for Shariah-compliant working capital and general corporate purposes.

26. RESERVES (CONTINUED)

(i) Statutory reserve

The statutory reserve is maintained in compliance with Development Financial Institutions Act 2002 (Act 618) and is not distributable as dividend.

(ii) Capital reserve

This is a reserve required to be maintained under Co-operative Societies Act 1993 and consists of capital gain from disposal of land or building, or both, under non-current assets.

(iii) Fair value reserve

This reserve relates to unrealised fair value gains and losses on financial assets available-for-sale.

(iv) Regulatory reserve

The regulatory reserve is maintained as an additional credit risk buffer to ensure the robustness of the financing impairment assessment methodology.

(v) Retained profits

Included in retained profits is an amount of RM1,340,000,000 (2015: RM925,000,000) earmarked to improve the Rate of Return Risk (ROR) exposure as part of asset and liability management strategies.

	65,998	148,292	**60,389**	143,225

33. ZAKAT

In computing for zakat, the Group and the Bank have been applying the growth capital method based on the rate of 2.5%. This method applies the rate on owners' equity, long term liability, net of fixed assets and non-current assets, and subjected to allowable adjustments.

	Group		Bank	
	2016	2015	**2016**	2015
	RM'000	RM'000	**RM'000**	RM'000
Provision for current year	**39,235**	39,315	**38,000**	37,343
Overprovision in prior years	**(151)**	(5)	**(151)**	-
	39,084	39,310	**37,849**	37,343

34. STATUTORY APPROPRIATIONS

Maintenance of statutory reserve fund is required under the Development Financial Institutions Act 2002 (Act 618), whereas contributions to Co-operative Education Trust Fund and Co-operative Development Provident Fund are made in compliance with the Co-operative Societies Act 1993 (Act 502).

Contribution to Bank Rakyat Foundation is made under paragraph 65(ii) of Undang-Undang Kecil Bank Kerjasama Rakyat Malaysia Berhad, which states that net profit for the year can be utilised towards a fund meant for welfare and benefits of members.

35. EARNINGS PER SHARE

Basic earnings per ordinary share have been calculated based on the Group's profit after taxation and zakat of RM1,633,028,000 (2015: RM1,824,121,000) divided by the weighted average number of ordinary shares of 2,985,110,000 (2015: 2,978,814,000) of RM1 each in issue during the financial year.

36. DIVIDENDS

	Group and Bank	
	2016	2015
	RM'000	RM'000
Cash dividend of 13% for the year ended 31 December 2015 (2014: 15%)	**384,822**	443,502
	384,822	443,502

During the financial year, the Bank paid a final cash dividend of 13% amounting to RM385 million in respect of the financial year ended 31 December 2015 on 23 March 2016.

In respect of the current financial year, the Board of Directors has proposed a cash dividend of 17% amounting to RM510 million. The proposed dividend will be recognised in the subsequent financial period upon approval by the relevant authorities of the Bank.

37. COMMITMENTS AND CONTINGENCIES

In the normal course of business, the Group and the Bank make various commitments and incur certain contingent liabilities with legal recourse to their customers. No material losses are anticipated as a result of these transactions.

	Group and Bank	
	2016	2015
	RM'000	RM'000
Contingent liabilities		
Bank guarantee given in respect of banking facilities granted to customers	**644,403**	236,015

	1,604	1,175

40. RELATED PARTY TRANSACTIONS

Parties are considered to be related if one party has the ability to control or jointly control the other party or exercise significant influence over the other party in making financial or operational decisions, or if one other party controls both.

The related parties of the Group and of the Bank are:

40.1 Subsidiaries

Details of the subsidiaries are shown in Note 13.

40.2 Key Management Personnel

Key management personnel are defined as those persons having authority and responsibility for planning, directing and controlling the activities of the Group and of the Bank either directly or indirectly. The key management personnel of the Group and of the Bank includes Executive Director and Non-Executive Directors of the Bank and certain members of senior management of the Bank and heads of major subsidiaries of the Group.

Remuneration of Directors and other members of key management are as follows:

	Group		Bank	
	2016	2015	**2016**	2015

42. FINANCIAL RISK MANAGEMENT

42.1 Overview

The Bank's business activities involve the use of financial instruments that expose the Bank to a variety of financial risks with the following as the primary risks:

i) Credit risk
ii) Liquidity risk
iii) Market risk
iv) Operational risk

42.2 Risk management framework

Risk Management Framework articulates the objectives, guiding principles and governance structure for risk management processes in the Bank. This enables the identification, assessment and measurement control and continuous monitoring of all material risks on a group-and bank-wide basis, supported by robust management information system that facilitates timely and reliable reporting of risks and the integration of information across the Bank.

Risk Management within the Bank is guided by the following principles:

- Alignment of risk taking activities with the Bank's risk appetite;
- Risk aware decision making with clear understanding of risks and their impacts on profitability and sustainability;
- Accountability through ownership of risks, controls, and profitability inherent in the Bank's business and support functions
- Integration of risk management, compliance and ethical business practices into the culture of the Bank.

The Bank's Risk Appetite Statement is as follows:

"The Bank's business strategy and risk-taking activities should always be within the capacity of the Bank. This is achieved by strengthening the following six dimensions - Risk Governance; Capital Adequacy and Shareholders' Value; Reputation as Islamic Bank; Asset Quality; Liquidity; and Operational Resilience."

42.2.1 Risk governance

The Bank manages its risks in accordance with the "Three Lines of Defence Model", which places accountability and ownership to the source of risk, whilst ensuring sufficient level of independent oversight.

The "Three Lines of Defence" consists of the following components:

(i) First Line of Defence - Informed Decision Making by Business Units

The Business Units are responsible to identify, manage and report their own risks. At this stage risk awareness is instilled starting at risk taking units so that Risk Management is incorporated into every aspect of work conducted.

42. FINANCIAL RISK MANAGEMENT (CONTINUED)

42.2 Risk management framework (continued)

42.2.1 Risk governance (continued)

(ii) Second Line of Defence - Oversight by Risk Management and Compliance

Risk Management and Compliance supports business units, as well as review and report key risks to the Management and Board of Directors. In doing so, Risk Management and Compliance provides support to Management and Board of Directors in fulfilling their oversight functions.

(iii) Third Line of Defence - Independent Assurance by Internal Audit

Internal Audit conducts quality assurance review, to ensure that the risk-taking activities are in line with established standards. Internal Audit provides recommendations for improvement where necessary. Its functions complement the support extended to the Management and Board Audit Committee in the risk oversight functions.

Roles and responsibilities of the oversight Committee:

Roles and responsibilities of the Board Risk Committee (BRC):

a) The BRC shall be responsible to review and recommend risk management strategies, policies, appetite and tolerance for Board's approval.
b) The BRC with the recommendation of Management Risk Committee periodically reviews the Risk Management Framework.
c) The BRC shall be responsible to assess the adequacy of risk management policies, processes and infrastructure to manage various types of risks is comprehensive and recommend to the Board for approval.
d) Review management's periodic reports on risk exposure, risk portfolio composition and risk management activities.

Roles and responsibilities of Management Risk Committee:

a) Assess whether the Bank's corporate objectives are supported by a sound risk strategy and an effective risk management framework that is appropriate to the nature, scale and complexity of its activities.
b) Establish, review and implement Board approved risk management framework and policies.
c) Communicate approved policies to employees and monitor as well as enforce compliance with these policies.
d) Periodically review Risk Management Framework and recommend to Management Risk Committee for escalation to BRC and Board.

42. FINANCIAL RISK MANAGEMENT (CONTINUED)

42.2 Risk management framework (continued)

42.2.1 Risk governance (continued)

Roles and responsibilities of Operational Risk Management Committee:

a) Review and recommend operational risk management strategies, policies, guidelines and procedures.
b) Review and assess adequacy of operational risk management framework, policies, guidelines and procedures in identifying, assessing, controlling and monitoring of operational risk and the extent to which these are operating effectively.
c) Ensure that infrastructure, resources and systems are in place to effectively manage operational risks.
d) Review operational risk profiles and periodic reports, including progress and follow-up actions.
e) Monitor the identified operational risks, key risk indicators and loss incidents in the business and functional units' operations.

Roles and responsibilities of Financing Review Committee:

a) Direct, monitor, review and consider such issues as may materially impact on the present and future quality of the Bank's financing book.
b) Conduct post-mortem on impaired financing and to learn weaknesses in existing credit policies and processes.
c) Ensure the procedures and resources are effective to identify and manage irregular and problem credits, minimize credit loss and maximize recoveries.
d) Review and recommend any enhancement of credit related policies, process and procedures.

42.3 Credit risk

Credit risk is the risk of suffering financial or non-financial loss should any of the customers, clients or market counterparties fail to fulfil their contractual obligations through the Bank's financing, hedging, trading and investing activities.

The Bank's retail and corporate credit exposures are governed by credit policies and stringent underwriting criteria. The Bank's credit processes are in line with industry best practices which emphasizes on individual accountability with clear lines of responsibility where credit administration, early monitoring and recovery are independent from Business Units.

42. FINANCIAL RISK MANAGEMENT (CONTINUED)

42.3 Credit risk (continued)

42.3.1 Management of credit risk

The Bank's credit risk management includes establishment of comprehensive credit risk policies, guidelines and procedures that document financing standards, credit risk rating, acceptable collateral and valuation, and compliance with regulatory and statutory requirements. The policies are periodically reviewed to ensure their continuous relevance.

Risk Management is responsible to formulate and review the credit risk policies, guidelines and procedures as well as credit portfolio monitoring. Risk Management also conducts independent credit assessment to evaluate quality of credit proposals by Business Units for corporate customers.

Risk Management also prepares reports to be presented to Board and Senior Management. The reports contain information on identified credit risk factors. With this information, Board and Senior Management are able to effectively identify adverse credit risk trends, take corrective actions and formulate business strategies accordingly.

42.3.2 Financing to retail customers

Financing granted to retail customers is individually underwritten by assessing historical payment track record and payment capacity of the customer. This process is governed by Retail Credit Risk Policy, Product Policies and assessed using credit scorecard. Both Retail Credit Risk Policy and credit scorecard are developed by Risk Management while Product Policies are developed by Product Division within Retail Banking and are independently reviewed by Risk Management.

The credit approving authority and credit approving officers have the responsibility to ensure that credit risk is properly assessed and all crucial credit information of the customer is included in the financing application.

Risk Management is also responsible to assess new/variation of financing product or program to ensure that the product/program offered to customers is beneficial to both customers and Bank whilst mitigating the inherent risks.

42.3.3 Financing to corporate customers

Granting of credit to corporate customers is individually underwritten as guided by the Bank’s risk appetite and policies. In its oversight role, Risk Management conducts independent assessment on all credit proposals to corporate customers prior to approval.

42. FINANCIAL RISK MANAGEMENT (CONTINUED)

42.3 Credit risk (continued)

42.3.4 Purchase of investment securities

Credit qualities of financial instruments are assessed based on ratings from external credit ratings agencies.

Portfolio review and monitoring is frequently conducted in ensuring the exposures are effectively managed and concentration risk is observed at all times.

42.3.5 Impaired financing and investment debt securities

Individually impaired financing and investment securities are financing and advances and investment securities (other than those carried at fair value through profit or loss) for which the Bank determines that there is objective evidence of impairment and it does not expect to collect all principal and profits due according to the contractual terms of the financing/investment security agreement(s).

42.3.6 Neither past due nor impaired financing and investment securities

These are financing and investment securities from which contractual payment of profit or principal have not defaulted and therefore are not impaired since there is no objective evidence of impairment.

42.3.7 Past due but not impaired financing and investment securities

Past due but not impaired financing and investment securities, other than those carried at fair value through profit or loss, are those for which contractual profits or principal payments are past due, but it is believed that impairment is not appropriate on the basis of the level of security/collateral available and/or the stage of collection of amounts owed to the Bank.

42.3.8 Financing with renegotiated terms

Financing with renegotiated terms are financing that have been restructured due to deterioration in the borrower’s financial position. Once the financing is restructured it remains in this category independent of satisfactory performance after restructuring.

42. FINANCIAL RISK MANAGEMENT (CONTINUED)

42.3 Credit risk (continued)

42.3.9 Allowances for impairment

The Bank establishes an allowance for impairment losses on assets carried at amortised cost that represents estimate of incurred losses in its financing and investment security portfolio.

The main components of this allowance are a specific loss component that relates to individually significant exposures and a collective financing loss allowance established for the group of homogeneous assets as well as for individually significant exposures that were subject to individual assessment for impairment but not found to be individually impaired.

Assets carried at fair value through profit or loss are not subject to impairment testing as the measure of fair value reflects the credit quality of each asset.

42.3.10 Write-off policy

The Bank writes-off a financing or an investment security, and any related allowances for impairment losses, when the Bank determines that the financing or investment security is uncollectible. This determination is made after considering information such as the occurrence of significant changes in the borrower's/issuer's financial position such that the borrower/issuer can no longer pay the obligation, or that proceeds from collateral will not be sufficient to pay back the entire exposure.

42.3.11 Collateral on financing and advances

In mitigating credit risk on financing and advances granted to customers, collaterals are obtained as follows:

i) House financing - charges over residential properties.

ii) Commercial property financing - charges over the properties being financed.

iii) Vehicle financing - ownership claims over the vehicles being financed.

iv) Other financing and advances - charges over business assets such as premises, trade receivables or deposits.

42. FINANCIAL RISK MANAGEMENT (CONTINUED)

42.3 Credit risk (continued)

42.3.12 Credit grading for investment securities

Credit qualities of financial instruments are assessed based on ratings from external credit ratings agencies.

At the end of the reporting period, instruments rated with "Grade D" are those that have defaulted beyond their maturity period.

42.3.13 Maximum exposure to credit risk

The following table presents the Bank's credit exposure of on-balance sheet and off-balance sheet financial instruments.

For on-balance sheet assets, the exposure to credit risk equals the carrying amount.

For credit commitments, maximum exposure to credit risk is the full amount of the undrawn credit facilities granter to customers.

42. FINANCIAL RISK MANAGEMENT (CONTINUED)

42.4 Liquidity risk

Liquidity risk arises from mismatches in the timing of cash flows due to the inability to meet maturing or regulatory obligations and customers' demands for funds when required, which may adversely affect daily operations, Bank's reputation and incur unacceptable losses.

42.4.1 Management of liquidity risk

The management of liquidity risk is subject to Bank Negara Malaysia's Liquidity Framework and Liquidity Coverage Ratio requirements as well as the Bank's liquidity risk management framework.

The Bank adopts various liquidity risk measurement tools in managing the cash flows for daily movement as well as medium and long-term positions to ensure sufficient funding sources to meet obligations.

It is important for the Bank to maintain diversification strategy of funding sources and providers to ensure stability of funding structure and adequate standby facilities while managing excessive concentration towards key depositors. The Bank maintains sufficient high-quality liquid assets to withstand against any unforeseen liquidity stress.

In addition, a liquidity stress testing is conducted based on sensitivity analysis for various stress scenarios covering the Bank's specific and market-wide crisis scenario. The stress scenarios would provide valuable assessment on the impact from adverse liquidity environment and the Bank's vulnerable portfolios.

The Bank has established liquidity contingency funding plan which entails the early warning indicators as well as strategies and actions to be taken by the liquidity crisis management team arising from different liquidity crisis scenarios.

The Bank's liquidity risk management framework, policies and procedures are reviewed periodically which are endorsed by Asset and Liability Committee (ALCO) and approved by the Board. ALCO meets on a monthly basis and is responsible to monitor the liquidity risk position against the Bank's risk appetite and approved limits.

42. FINANCIAL RISK MANAGEMENT (CONTINUED)

42.4 Liquidity risk (continued)

42.4.2 Exposure to liquidity risk

The key measure used by the Bank for managing liquidity risk is the ratio of net liquid assets to deposits from customers.

For this purpose, net liquid assets are considered as including cash and cash equivalents and investment grade securities for which there is an active and liquid market.

Details of the reported Bank ratio of net liquid assets to deposits from customers at the end of the reporting period and during the year were as follows:

	Bank	
	2016	2015
At 31 December	**31.58%**	32.78%
Average for the year	**32.98%**	33.56%
Maximum for the year	**34.17%**	35.75%
Minimum for the year	**31.36%**	32.56%

42.4.3 Liquidity risk of assets and liabilities

The main thrust of liquidity management is the projection of up to one year of the maturity profile of the Bank’s assets, liabilities and off-balance sheet commitments from a given position.

The focus is on the ability of the Bank to match its short-term liquidity requirement arising from maturing obligations with maturing assets, followed by a medium-term assessment of liquidity up to one year.

The primary basis for determining the appropriate time bands is the contractual maturity, which is when the cash flows crystallise.

42. FINANCIAL RISK MANAGEMENT (CONTINUED)

42.5 Market risk

Market risk is defined as the risk of financial loss due to changes in equity prices, benchmark rates, credit spreads, foreign-exchange rates, commodity prices, and other indicators whose values are set in a public market. Changes in market rates can affect the Bank’s net earnings and also the economic value of Bank’s equity.

The function of Market Risk and Asset Liability Management (ALM) is to manage and control market risk exposure in order to optimize return on risk while maintaining a market profile consistent with the Bank’s strategic plan.

The Bank has established the market risk policy, strategy and processes which are periodically reviewed and updated to take into account changes in activities and market structure to ensure effective implementation of risk management policies.

42.5.1 Management of market risk

The Bank manages market risk by segregating exposure to market risk between trading and non-trading portfolios. Trading portfolios are held by treasury department which consist of financial assets that are managed on fair value basis.

The risk measurement techniques employed by the Bank to measure and quantify the market value changes and the level of market risk comprise of Value-at-Risk (VaR), Modified Duration and Present Value of One Basis Point (PV01).

Exposure of the Bank to the foreign exchange rates is minimal since operation of foreign currency unit is limited to remittance services only.

42.5.2 Profit rate risk

Investment in debt securities and financing are exposed to risk of change in profit rates that would result in changes in cash flows. On the other hand, investment in equity securities and other short-term receivables and payables are not significantly exposed to profit rate risk.

Among other efforts in mitigating this risk is by diversifying investment mainly in fixed-income securities with different duration. The Bank has not engaged in hedging through derivative instruments during the year.

The sensitivity of the Bank's financial assets and liabilities to the profit rate risk is measured and monitored proactively using multiple measurement techniques such as Gap Analysis, Duration and Simulation Model.

42. FINANCIAL RISK MANAGEMENT (CONTINUED)

Minimum for the year	(251,146)	193,024	(125,576)	96,508

42.5.3 Exposure to profit rate

Among other controls to ensure that market risk exposures remain within tolerable levels include stress testing, new product approval procedures and listing of permissible instruments that can be traded.

Periodic stress testing and control assessment are conducted to address the plausible market events relating to the threat of market failure that could disrupt the Bank's profitability and capital adequacy in ensuring its resiliency.

42. FINANCIAL RISK MANAGEMENT (CONTINUED)

42.6 Operational risk

The Bank defines operational risk as the risk of loss or non-achievement of business objectives due to inadequate or failed internal processes, people and system, or from external events.

The Bank's Operational Risk Management (ORM) Framework sets out the governance and oversight structure, roles and relationships of the three lines of defense mechanism as well as the high level principles and methodologies for operational risk identification, assessment, control and monitoring.

The framework recognises the relationships between operational risk and other risk types such as strategic, credit, market and reputation risks; and is cascaded to also govern the management of operational risk sub-types i.e. legal and compliance risk, Shariah non-compliance risk, Information Technology risk and outsourcing risk.

The Bank has no appetite for losses arising from inadequate internal controls, systems, and processes; which can be elaborated as zero appetite for:

- Failure to maintain a sound and proportionate system of internal controls to manage the expected operational risk losses and avoid the unexpected operational risk losses;
- Regulatory censures, fines or prosecution relating to the laws and regulations applicable to the Bank; and
- Failure to comply with Shariah rules and parameters as set out by the Shariah Committee (SC) and/or the Shariah Advisory Council of Bank Negara Malaysia.

The Bank continuously monitors its operational risk exposure to ensure the level of exposure is within the acceptable tolerance. This is conducted by means of the established governance and oversight structure as well as through the day-to-day operational risk management processes.

ORM processes are undertaken through the implementation of tools such as Risk and Control Self-Assessment (RCSA), Key Risk Indicator (KRI) and Loss Event Data (LED) collection. RCSA is a tool used to identify and assess the risks in key business processes, evaluate the effectiveness of internal controls and provide the basis for determining risk responses/strategies in pursuing business objectives. KRI provides early warning signal of any increase in risk exposure and/or occurrence of control failures. To support operational risk analytics, the Bank collects LED based on BNM's Operational Risk Integrated Online Network (ORION) requirements.

To improve its operational resilience, the Bank has revamped its Business Continuity Management (BCM) framework and processes by streamlining the governance structure and response matrix based on severity of disruption; namely code Amber, Red and Black. Code Amber incidents are isolated disruption affecting only a particular business/activity which shall be managed by the respective business involved. The entire crisis management hierarchy headed by Managing Director/President shall be activated under Code Black, which is a full-on crisis that could potentially affect the going concern of the Bank. To ensure effectiveness of the business continuity plans and to be in line with regulatory requirements, regular exercises, disaster simulations and recovery drills are conducted throughout the year.

42. FINANCIAL RISK MANAGEMENT (CONTINUED)

42.7 Capital management

The Bank's objectives when managing capital, which is a broader concept than the 'equity' on the face of the statement of financial position, are:

i) To comply with the capital requirements set by the regulators of the banking markets where the entities within the Bank operate;

ii) To safeguard the Bank's ability to continue as a going concern so that it can continue to provide returns for shareholders and benefits for other stakeholders; and

iii) To maintain a strong capital base to support the development of its business.

Capital adequacy and the use of regulatory capital are monitored daily by the Bank's management, employing techniques based on the guidelines under the New Liquidity Framework developed by Bank Negara Malaysia. The required information is filed with Bank Negara Malaysia on a monthly basis.

The Bank maintains a ratio of total regulatory capital to its risk-weighted assets above a minimum level agreed with Bank Negara Malaysia which takes into account the risk profile of the Bank. The regulatory capital requirements are strictly observed when managing economic capital.

The Bank's regulatory capital comprises two tiers:

i) Tier 1 capital: share capital, statutory reserve, capital reserve and retained profits; and

ii) Tier 2 capital: collective impairment allowances on non-impaired financing and regulatory reserve.

Banking operations are categorised as either trading book or banking book, and risk-weighted assets are determined according to specified requirements that seek to reflect the varying levels of risk attached to assets and exposures not recognised in the statement of financial position.

The Bank's policy is to maintain a strong capital base so as to ensure investors', creditors' and market confidence and to sustain future development of the business. The impact of the level of capital on shareholders' return is also recognised and the Bank recognises the need to maintain a balance between the higher returns that might be possible with greater gearing and the advantages and security afforded by a sound capital position.

42. FINANCIAL RISK MANAGEMENT (CONTINUED)

42.7 Capital management (continued)

42.7.1 Capital adequacy ratio

The Bank is required to comply with the core capital ratio and risk-weighted capital adequacy ratio prescribed by Bank Negara Malaysia. The Bank was in compliance with all prescribed capital ratios throughout the period.

	Bank	
	2016	2015 Restated
Before proposed dividend		
Core capital ratio	**19.74%**	19.48%
Risk-weighted capital adequacy ratio	**21.26%**	20.70%
After proposed dividend		
Core capital ratio	**19.05%**	18.93%
Risk-weighted capital adequacy ratio	**20.57%**	20.14%

The above ratios are derived by taking into account the core capital and capital base against the risk weighted assets of the Bank. Components of the capital are as follows:

	Bank	
	2016 RM'000	2015 RM'000
Tier I capital		
Paid-up share capital	**2,986,030**	2,983,923
Retained profits	**6,363,616**	5,699,785
Other reserves	**5,168,170**	4,758,185
Total Tier I capital (core)	**14,517,816**	13,441,893
Tier II capital		
Subordinated sukuk	**300,000**	-
Collective impairment *	**555,503**	642,077
Regulatory reserve	**329,672**	258,653
Total Tier II capital	**1,185,175**	900,730
Total capital	**15,702,991**	14,342,623
Less: Investment in subsidiaries	**(65,976)**	(61,976)
	(65,976)	(61,976)
Total capital base	**15,637,015**	14,280,647

42. FINANCIAL RISK MANAGEMENT (CONTINUED)

42.7 Capital management (continued)

42.7.1 Capital adequacy ratio (continued)

* This is a surplus amount allowable after taking into account the collective impairment allowance on impaired financing of the Bank.

Assets in various categories are risk-weighted as follows:

	Bank	
	2016	2015
	RM'000	RM'000
Total assets assigned 20% risk-weighted	**630,739**	482,475
Total assets assigned 50% risk-weighted	**2,049,690**	1,520,233
Total assets assigned 100% risk-weighted	**70,183,842**	65,830,370
Off-Balance Sheet claims assigned 100% risk-weighted	**677,134**	1,158,093
	73,541,405	68,991,171

43. FAIR VALUES OF FINANCIAL INSTRUMENTS

Financial instruments comprise financial assets, financial liabilities and off-balance sheet financial instruments. Fair value is the amount at which the financial asset could be exchanged or a financial liability could be settled, between knowledgeable and willing parties in an arm's length transaction. The information presented herein represents the best estimates of fair values as at the end of the reporting period.

Where available, quoted and observable market prices are used as the measure of fair values. Where such quoted and observable market prices are not available, fair values are estimated based on appropriate methodologies and assumptions on risk characteristics of various financial instruments, discount rates, estimates of future cash flows and other factors. Changes in the uncertainties and assumptions could materially affect these estimates and the resulting fair value estimates.

Fair value information for non-financial assets and liabilities is excluded as they do not fall within the scope of MFRS 132 ('Financial Instruments: Disclosure and Presentation') which requires the fair value information to be disclosed.

43. FAIR VALUES OF FINANCIAL INSTRUMENTS (CONTINUED)

43.1 Valuation of financial instruments

The Group and the Bank measure fair values using the following fair value hierarchy that reflects the significance of the inputs used in making the measurements.

i) Level 1: Quoted market price (unadjusted) in an active market for an identical instrument.

ii) Level 2: Valuation techniques based on observable inputs, either directly (i.e. as prices) or indirectly (i.e. derived from prices). This category includes instruments valued using: quoted market prices in active markets for similar instruments; quoted prices for identical or similar instruments in markets that are considered less than active; or other valuation techniques where all significant inputs are directly or indirectly observable from market data.

iii) Level 3: Valuation techniques using significant unobservable inputs. This category includes all instruments where the valuation technique includes inputs not based on observable data and the unobservable inputs have a significant effect on the instrument's valuation.

This category includes instruments that are valued based on quoted prices for similar instruments where significant unobservable adjustments or assumptions are required to reflect differences between the instruments.

Fair values of financial assets and financial liabilities that are traded in active markets are based on quoted market prices. For all other financial instruments, the Group and the Bank determine fair values using valuation techniques.

There were no financial liabilities of the Group and the Bank at the end of the reporting period that were measured at fair value.

43. FAIR VALUES OF FINANCIAL INSTRUMENTS (CONTINUED)

43.3 Valuation of financial instruments not carried at fair value (continued)

The following methods and assumptions are used to estimate the fair values of the following classes of financial instruments:

43.3.1 Cash and short-term funds

The carrying amounts of cash and short-term funds approximate fair values due to the relatively short maturity of the financial instruments. This is similar to deposits and placements with financial institutions maturing within one month that have relatively short maturity period.

43.3.2 Deposits and placements with financial institutions

The fair values of deposits and placements with financial institutions are not materially sensitive to changes in market profit rate because of their limited term to maturity.

43.3.3 Financial assets held-to-maturity

Financial assets held-to-maturity are carried at amortised cost at the end of the reporting period. Fair values for these financial instruments are estimated based on broker quotes from Bond Pricing Agency.

43.3.4 Financing and advances

Financing and advances are carried at amortised cost at the end of the reporting period. Fair valuation of these financial instruments are estimated based on discounted payment to be received in the future using effective profit rate offered for similar financing at the reporting date.

43.3.5 Trade and other receivables

The carrying amounts of trade and other receivables reported in the statement of financial position approximate their fair values due to the relatively short-term maturity of these instruments.

43. FAIR VALUES OF FINANCIAL INSTRUMENTS (CONTINUED)

43.3 Valuation of financial instruments not carried at fair value (continued)

43.3.6 Deposits from customers

The fair values of deposits payable on demand (demand and savings deposits), or deposits with remaining maturity of less than one year are estimated to approximate their carrying amounts.

The fair values of deposits with remaining maturities of more than one year are estimated using discounted cash flows based on effective profit rates for similar deposits from customers at the reporting date.

However, since all deposits received can be classified as Islamic deposits, their fair values are deemed to approximate their carrying amounts as profit rates are determined at the end of the maturity period based on the sharing of profits generated from investments of the deposits.

43.3.7 Deposits and placements from banks and financial institutions

The fair values of these financial instruments with remaining maturity of less than one year approximate their carrying amounts due to the relatively short maturity of the financial instruments.

43.3.8 Recourse obligations on financing sold to Cagamas

The fair values for recourse obligations sold to Cagamas that have remaining maturity of less than one year are estimated to approximate their carrying amounts. For remaining maturity of more than one year, they are estimated using discounted cash flows based on prevailing Cagamas rates at the reporting date.

43.3.9 Debt securities issued

Debt securities issued are measured at amortised cost at the end of the reporting period. The fair value of the securities are derived by referring to the present value of the expected amount due in the future by applying the effective profit rate for the debt securities at the reporting date.

43.3.10 Trade and other liabilities

The carrying amounts of trade and other liabilities reported in the statement of financial position approximate their fair values due to the relatively short-term maturity of these instruments.
